

*2022 Math Awards
Virtual Ceremony*

Master of Ceremonies

Dr. Dan Pritikin

*The nature of \$\$ for
undergraduate awards
from Miami U's
Department of
Mathematics*

Awards are complex!

$$\sqrt{-4} = 2$$

it's all fun and games
until someone loses an *i*.

Award recipients will receive
an email, reminding them to
either pick up their certificates
this Monday or later
(123 BAC Math office)
or have them sent by mail.

This year, these awards vary from \$50 to \$700 for honoring high achieving 1st, 2nd, 3rd year students.

- Distributed through Bursar account.
- A \$3000 to \$4500 scholarship is possible for 2nd year students who meet some unusual donor requirements.

Awards criteria tend to depend
on number of credit-hours
earned, and specific choice of
Academic major.

- But the Department tries to group
students based on their number of years
of full time study. So, a 1st year student
with 96 cr. hrs. can be awarded an
Alumni Senior Prize!?
